The chemicals used for Aquatic Nuisance Control are registered by the U.S. Environmental Protection Agency, and the Michigan Department of Agriculture. The potential for damage to fish and other non-target organisms is minimal provided that the product is used as directed on the product label and the permit. To minimize the possible effects on health and the environment, the treated water is restricted for the above purposes.

Authority: Parts II and III of P.A. 433 of 1934, as amended.
